

Idaho School for the Deaf and the Blind

Policies and Procedures

Section: 800

Subsection: Safety and Loss Control

Revised February 05

Reference:

Purpose:

The Idaho School for the Deaf and the Blind is committed to providing a safe, secure and healthy environment for all of its employees.

Policy:

The fundamental goal of the Idaho School for the Deaf and the Blind Safety, Security and Loss Control Program is to assure that any loss, or the risk of loss, does not prevent the Agency and its employees from successfully carrying out their primary functional responsibilities. Our best resource to help us meet this goal is every individual employee of ISDB. All levels of management will strive to continuously identify and control hazards that jeopardize agency resources in all and any area. It is the responsibility of all employees to follow all safety and loss control policies and procedures.

ISDB is committed to:

- Maintain ongoing training programs so that all employees clearly understand all facets of the Safety, Security and Loss Control Program, particularly those that directly affect them and their duties.
- Make reduction, control and elimination of risks a top priority in all plans and budgets.
- Establish and maintain communication with all employment levels to keep employees aware of the safety, security and health factors of their jobs.
- Establish and maintain a safety and security record keeping system.

By accepting mutual responsibility to work safely all employees of the Idaho School for the Deaf and the Blind can contribute to the protection of property and to the well being of employees, students, parents and communities we serve.

Revised/Approved – February 2005

Harvey W. Lyter III, Interim Superintendent
